November 16, 2026
Konoike Transport Co., Ltd.

Enhancing Repair and Maintenance Services
for Power Generation Facilities in the Engineering Business

Konoike Transport Acquires All Shares of Hamaoka Industry Co., Ltd.

Leveraging Hands-on Technical Capability to Respond to Diverse Facility Needs

On November 16, 2026, Konoike Transport Co., Ltd. (Head office: Chuo-ku, Osaka; Representative Director, Chairman, President, and Chief Executive Officer: Tadahiko Konoike; hereinafter "Konoike Transport") acquired all the shares issued by Hamaoka Industry Co., Ltd. (Head office: Saikai-shi, Nagasaki; Representative Director: Hiroyuki Kitagishi; hereinafter "Hamaoka Industry").

Hamaoka Industry operates four locations in Nagasaki Prefecture, and its main business involves machinery and equipment installation work, steel structure work, and facility repair/maintenance at thermal power stations. The company is particularly proficient at responding to a wide range of on-site needs in the field of design, construction, and maintenance, with a focus on facility maintenance.

The engineering business of the KONOIKE Group provides unique engineering services based on technical capability cultivated over long years at major steelmakers. We provide comprehensive services covering plant machinery and equipment design, production and processing from scratch at our in-house factories, and installation/maintenance work. We are also involved in repair and maintenance work at coal-fired thermal power stations. This share acquisition will enable us to combine the technology, hands-on technical capability, human resources, and customer base of Hamaoka Industry together with the sales capability and engineering functions of the KONOIKE Group, as we aim to enhance our existing business and expand orders in other fields. As labor shortage concerns grow across the construction industry, this effort will enable us to coordinate the engineers and improve the construction work capability of both companies, generating synergy in the fields of construction, repair, and maintenance.

As part of Medium-Term Business Plan 2027*, the KONOIKE Group aims to expand its operations and achieve higher added value in the engineering business, as well as achieve a qualitative transformation in the contract business and secure a stable revenue base. The acquisition of Hamaoka Industry shares is in line with this policy.

Note that the acquisition has only a minor impact on the consolidated performance of Konoike Transport.
